

SUPPORT METHODS: CAPABILITIES

EVALUATE THE CAPABILITIES THAT EACH PARTNER HAS

What is this for?

Use this template when you try to understand the key capabilities that are needed, to which extent the capabilities are found among the partners and how to source the capabilities missing.

Instructions

Use the capability analysis template (see next page).
Examples:

Key capability

Energy Management solutions

Capability current state

None of the participating organisations has access to X.

Proposed actions to address

Must hire or educate an X.

Complexity / effort to transform

Not many X live in this part of the world, might be worth the effort to transform.
